# Management of Mac Devices

A feature available with N-able N-sight RMM

## Monitor, manage, and protect Mac devices in N-able N-sight RMM

N-sight™ RMM is designed to offer a seamless experience for monitoring, managing, and protecting Mac® devices across your IT environment. Protect your organization from data loss and downtime by backing up important documents to make them easily and quickly recoverable. Additionally, safeguard Mac devices against ever-changing cyberthreats with robust antivirus.

## Manage and monitor Mac and windows devices from one dashboard

- **Save time** by using the same tools for Mac and Microsoft® Windows® devices.

- **Simplify managing Macs** with automation. Use or modify premade templates for routine tasks or upload your own scripts.

- **Reduce anxiety** associated with patching and upgrades. We test patches for stability before releasing them to you.

## Protect Mac devices from viruses and malware

- **Manage antivirus** for Windows and Mac from the same dashboard.

- **Increase efficiency** by using the same security workflow for Mac and Windows.

- **Trust that RMM** is designed to protect and monitor endpoints 24/7/365.

## Back up Mac documents to the cloud and recover them easily

- **Get more control of your backup process** by selecting the most critical folders for your business.

- **Minimize downtime and rework** with support for over 50 document types and 28 days of storage (with 56 versions).

- **Give your colleagues peace of mind** that documents are backed up twice per day automatically and can easily be recovered.

- **Mitigate potential disasters** and ensure business continuity by restoring critical business documents.

## About N-able:

N-able fuels IT services providers with powerful software solutions to monitor, manage, and secure their customers' systems, data, and networks. Built on a scalable platform, we offer secure infrastructure and tools to simplify complex ecosystems, as well as resources to navigate evolving IT needs. We help partners excel at every stage of growth, protect their customers, and expand their offerings with an ever-increasing, flexible portfolio of integrations from leading technology providers.
